- ♦ Repair to secondary containment components

³ This fee will apply to permit projects where more than one inspection by DEH will be required. The fee includes two inspections.

⁴ Any additional inspections required will be subject to a \$290.00 fee. For example, DEH currently requires three(3) inspections (soil sampling, primary system pressure test and final) for these typical projects:

- ♦ Complete or partial repipes to a UST system

For these projects an additional inspection fee will be required for the third inspection. If you are unsure as to how many inspections are required for a particular project, please contact Robert Rapista at (619) 338-2207.
